

Dear Dr. Alfons,

Greetings from Kakuma. Yes, I reached Kakuma on 10th. As you know, once returning I find so much work, that we get lost in them!

I have seen the picture: Many teachers are gone and it does not make sense to put that photo. I shall try to get a photo as soon as possible. When do you need to publish it? Here we are keeping fine. Savio Club is going on well. I am happy that Petronilla is working hard and the training has become much better. All the children and teachers are keeping fine. Last week we had rains. The floods that came is very close to our workshops and we are busy removing the Carpentry workshop so that it is not taken by water. When we get some funds we shall relocate it to another place. We have saved the roofing sheets, and other metal components. But we need cement and some labor to relocate it to another place. So we wait. Thank you for sending the money. Our expenses are much now as we have extra centres in Kalobeyei.

For the rest we are keeping fine. It is not soooo hot these days as the rains helped to some extent.

With best wishes,

Fr. Jose
